Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 December 2001.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. Claims 1-38 are pending.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species:

Species I: Directed toward selecting an investment problem of interest based on a desired investment objective, using a robust minimum variance portfolio selection program. This species is disclosed in Figure 3, #320 and Paragraphs 50-59 of the specification. (Claims 9, 18, 29, 30)

Species II: Directed toward selecting an investment problem of interest based on a desired investment objective, using a robust maximum return portfolio selection program. This species is disclosed in Figure 3, #330 and Paragraphs 60-62 of the specification. (Claims 10, 19, 31, 32)

Species III: Directed toward selecting an investment problem of interest based on a desired investment objective, using a robust maximum Sharpe ratio portfolio selection program. This species is disclosed in Figure 3, #340 and Paragraphs 63-64 of the specification. (Claims 11, 20, 33, 34)

Species IV: Directed toward selecting an investment problem of interest based on a desired investment objective, using a robust value at risk portfolio selection program. This species is disclosed in Figure 3, #350 and Paragraphs 65-66 of the specification. (Claims 12, 21, 35, 36)

The species are independent or distinct because they are disclosed as separately patentable and mutually exclusive approaches to selecting an investment problem of interest based on a desired investment objective.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-8, 13-17, 22-28, and 37-38 are generic. (It should also be noted that claims 6, 7, 37, and 38 should be amended to be limited to the elected species.)

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
MPEP § 809.02(a).

3. A telephone call was not made to request an oral election to the above restriction requirement because the restriction is deemed to be complex.

Art Unit: 3694

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
